- 1** Adapting content to mobile devices: Fractal summarization for mobile devices to access large documents on the web 9%

Christopher C. Yang , Fu Lee Wang

Proceedings of the twelfth international conference on World Wide Web May 2003

Wireless access with mobile (or handheld) devices is a promising addition to the WWW and traditional electronic business. Mobile devices provide convenience and portable access to the huge information space on the Internet without requiring users to be stationary with network connection. However, the limited screen size, narrow network bandwidth, small memory capacity and low computing power are the shortcomings of handheld devices. Loading and visualizing large documents on handheld devices bec ...
